Develop a software by Fortran 77 to solve problems applies autoregressive moving average ARMA or ARIMA models to find the best fit of a time-series model to past values of a time series using Box-Jenkins method. This is joint between statistics and programming.
1986 1987	Attil Secondary Boys School Attil, Tulkarm, West Bank, Palestine Other	Other	Tawjehi (General Certificate) in Science section

International Experience

Contracted as consultant with ILO [2000 to 2013] (for Palestine), mostly on annual basis (short and long-term). My work served mostly the Ministry of Labour to develop and improve the Labour Market Information System (LMIS) and Improve the labour inspection system and its forms, instructions and tools. I also delivered training courses and workshops on (related issues). Additionally, I acted as coordinator among all partners. On another level, I worked with an external consultant for ILO help all partners (Unions, employers and government) reach a consensus on Minimum Wage that was approved by Cabinet.

Membership of national committee to develop an Employment Strategy 2000-2004

Arab States
Middle East/N. Africa

- **2013-present: Chief of** Regional working group to develop a statistical business registers and business statistics (Mediterranean Countries).
- ILO external contracts: 2007: Yemen: Prepared a report on Women and Men in Yemen.
- 2007: Regional Arab Countries: Prepared a conceptual and analytical report on Unprotected Employment in the West Bank and Gaza Strip. A gender Equality and workers' rights perspective.
- Jun 2008, as a regional project for ILO and CAWTAR. Review their reports on Informal employment and sector reports led.
- Iraq: as an ILO consultant for two years. My consultancy focused mainly on a labour market analysis and job generation for Iraq: An Employment and Decent Work Strategy.
- Palestine: prepared a policy brief on Men and Women in Palestine.
- External Contract with Organization of Islamic Countries (OIC), Turkey
- 2008: Yemen: Trainer-Labour Statistics and Analysis training course.
- 2015: Islamic Countries: Training Materials (Text books, Questions and Answers Bank) for three subjects: Labour Statistics, Time Use Surveys and Labour Cost.
- Contract with CAWTAR/GERPA in Tunis: I submit two proposals and they was accepted on the following: 2010: The role of governmental and international aid programs in empowering and protecting women heads of households in the Palestinian Territory and refugee camps in the Diaspora 2010: Survey (data collection) and analysis in Palestine, Jordan, Syria and Lebanon.
- 2012: The relation between users and producers of Gender and Labour Statistics: Assess

the factors that extend the gap between labour statistics producer and policy makers. Palestine, Jordan, Tunisia. (Internal Report)

Present and previous employment

9 listed currently

Exact Title of Position held: **Lecturer - Part time**

Name/address of employer: **Birzeit University, Berzeit, Ramallah, West Bank, Palestine. In addition to Lecturer in the Master Program in Economic in ALNAJAH National University, Nablus, Palestine.**

Name and title of supervisor(s): **Dr. Talal Shahwan, Dean of Graduate studies and Dr. Saeed Haifa, Dean of Economic and administrative college**

From:-To: **2012 - Present**

Brief description of duties and responsibilities:

Lecturer - Part time: Master in Applied Statistics program and Master in Economics. The main courses are:

Labor Economics: Theory and Policies

Economic Statistics, Seminar 1 and 2

International Trade

Key achievements:

1) I submitted a proposal to change the program of Master in Applied Statistics to meet the local needs and serve the National Statistics System in Palestine, which was accepted. Implementation of the new program is due to start next year.

2) I introduced a novelty in the university by asking the students to work on real surveys. e project was successful in receiving financial support from the private sector for 2 seminars to conduct 2 real surveys and publish the results in actual conferences.

Exact Title of Position held: **Director General of Economic Statistics**

Name/address of employer: **Palestinian Central Bureau of Statistics, Ramallah, Palestine.**

Name and title of supervisor(s): **Ms. Ola Awad, President of Palestinian Central Bureau of Statistics**

From:-To: **2008 - Present**

Brief description of duties and responsibilities:

As Director General, I am responsible for planning, management and implementation of the program of economic and business statistics (it includes: National Accounts, Foreign trade, labour, prices and indices, business statistics and informal sectors including the business surveys, BoP, analysis and forecasting). I also ensure that the goals of national statistical strategy and the annual plan are achieved, I also prepare budget estimates for the program and supervise its implementation. Ensure adequate coaching and performance management of staff.

Evaluate the efficiency and effectiveness of all the projects activities within the economic statistics program.

submitting periodic financial and technical to the PCBS President. Assume full responsibility for the planning and organization of seminars, workshops, technical meetings and training courses as necessary with the stakeholders, data users and producers. In addition, I supervise an external advisory committee.

Ensure adequate dissemination of information on projects through publications and press releases, and prepare proper presentations on such information for conferences and other events .I am responsible for achieving the ToR of each technical mission and following up on its recommendations.

I supervise the team to develop the training manuals and the documentations.

Member of PCBS' board.

INCLUDE my job:

Chief of the Statistical Business Register.

Chief of the National Committee To develop and implement the Business Register (appointed by prime minister) since 2012.

Project manager - National project to develop and implement national business register since 2014.

Chief of the regional work group for statistical business register and business statistics (SBR) for Arab Mediterranean countries since 2014. As a chief of the committee, I take full responsibility to coordinate all the activities, needs assessments and plan for missions to develop and implement the SBR which financed by Eurostat since mid of 2015.

Key achievements:

First: Project manager - National project to develop and implement national business register. This project faced many challenges due to its sensitive nature and financial cost. Another core challenge was how to converge between all partners and to implement in a manner owned by all of them. I also needed to harmonize all the previous efforts and systems. As project manager, I designed the main roadmap for the project. I used extensive diplomatic skills and efforts to achieve approval of all parties on the plans in order to avoid any resistance to the changes proposed.

Second: I advised all the international institutions such as IMF and the World Bank to adopt of our estimations for macroeconomics indicators instead of their own estimations.

Third: I also enlarged the scope economic statistics by creating a new department for the projection and forecasting of main macroeconomic indicators for policy makers to help them devise informed policies and decisions. And another department for the satellite accounts

Exact Title of Position held: **Deputy Assistant of President for Statistical Programs**

Name/address of employer: **Palestinian Central Bureau of Statistics (PCBS), Ramallah, Palestine**
